Date: June 30, 2023

Bulletin: No. 2023-37

**Subject: New Robert Presley Institute of Criminal Investigation (ICI) Foundation  
Specialty Course – ICI Fundamentals of Cybercrime Investigations**

The California Commission on Peace Officer Standards and Training (POST) has collaborated with the Government Training Agency, the California Department of Justice Advanced Training Center, and subject matter experts to develop a new Institute of Criminal Investigation (ICI) Foundation Specialty Course – ICI Fundamentals in Cybercrime Investigations, Course Control Number (CCN) 9070-23415, which will be offered after October 1, 2023. At or about the same time, the existing ICI Internet Crime Investigations Course, CCN 9260-30591, will be converted from an ICI Foundation Specialty Course to an ICI Elective Course that can be taken after and to build upon the learning outcomes obtained in the Fundamentals in Cybercrime Investigations Course.

The ICI Fundamentals in Cybercrime Investigations Course has been designed to enhance the effectiveness of the individual criminal investigator's skills in performing the multi-disciplined, multi-leveled tasks necessary to successfully investigate aspects of investigations involving cybercrime. Instruction in this course is provided through a coordinated, experience-based, adult learning approach addressing technology crimes, basic computer components, internet and basic networking, internet crime investigation techniques, digital forensics and seizures, intelligence gathering, cellular phones, cloud-based investigations, and emerging trends.

Questions regarding these courses may be directed to [Gerald Fernandez](#), Law Enforcement Consultant with the Training Program Services Bureau, at [\(916\) 227-3933](#).
